

## WHO IS A CAREGIVER

A Caregiver is someone who provides personal care services for a Veteran. These services could include assistance with activities of daily living like personal hygiene, or providing supervision to ensure the safety of the Veteran.

A Caregiver can be a spouse, significant other, adult child, parent, family member, or a friend.

## PROGRAM OVERVIEW

VA offers a wide range of services for Caregivers of eligible Veterans of all eras.

Caregivers of eligible Veterans who were seriously injured in the line of duty on or after September 11, 2001 may be eligible for additional support and services, including financial assistance.

Every VA Medical Center has a Caregiver Support Coordinator who can help you locate the services you need (see contact information on the back of this brochure or on the website).

## ABOUT THE PROGRAM

VA's Caregiver Support Program was developed to support Caregivers of Veterans, our partners in ensuring the best care of Veterans. Our goal is to strengthen and support Caregivers in this role.

The Program offers a menu of services including on-line courses, face to face classes, telephone support, in-person and peer support. You can choose to participate in one or all of these services.

Every VA Medical Center has a Caregiver Support Coordinator (CSC). This professional is your key to accessing this menu of services and more. Contact the CSC nearest you for more information about caregiving, connecting to resources within VA and your community, navigating the VA system and providing you support.
